Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 19 August 2005.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1-70 is/are pending in the application.

DETAILED ACTION

1. Applicant's election of Group I invention, claims 1-18, 76, without traverse is acknowledged. Therefore, in view of lack of traversal to restriction requirement set forth from Response to Restriction Requirement, the restriction set forth by the examiner is deemed proper and is therefore made Final.

2. In view of amendment filed August 19, 2005, the rejection of Claims 1-18, 67 under 35 U.S.C. 102(b) as being anticipated by Kaneko et al. (US 3,635,856) is withdrawn.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-18, 67 are rejected under 35 U.S.C. 102(b) as being anticipated by Kaneko et al. (US 3,635,856) as affirmed by product literature of Mitsubishi-Kagaku

Art Unit: 1713

Food Corporation, copyright 2002 (c) obtained from website

<http://www.mfc.co.jp/english/index.htm>.

Kaneko et al. (col. 1, line 42-47; col. 3, line 9-30; col. 4, line 45-60; col. 5, line 25-45; col. 5-6, examples I and II) disclose a process for extruding a resin-containing composition comprising: a) providing an extrudable mass comprising at least one extrudable resin and saccharide ester; and b) extruding said extrudable mass to produce an extrudate. As affirmed by product literature of Mitsubishi-Kagaku Food Corporation, copyright 2002 (c), the saccharide ester of Kaneko et al. has a structure that is substantially identical to the saccharide ester of Formula (I) as claimed.

Regarding claims 2-14, Kaneko et al. clearly disclose an amount of saccharide ester for the extruded composition. Regarding the recited "to improve..." of claims 2-14, applicants must recognize that a recitation of the intended use of the claimed invention must result in a structural difference between the claimed invention and the prior art in order to patentably distinguish the claimed invention from the prior art. If the prior art structure is capable of performing the intended use, then it meets the claim. In a claim drawn to a process of making, the intended use must result in a manipulative difference as compared to the prior art. See *In re Casey*, 370 F.2d 576, 152 USPQ 235 (CCPA 1967) and *In re Otto*, 312 F.2d 937, 939, 136 USPQ 458, 459 (CCPA 1963).

Response to Arguments

Applicant's arguments filed August 19, 2005 have been fully considered but they are not persuasive. Applicants argue that Kaneko et al. (col. 3, line 73 to col. 4, line 1) teach away from highly substituted esters. However, the examiner disagrees because the formula (I) as claimed does not requires all A to be an ester. A could also be hydrogen as well as claimed. Therefore, the Declaration filed August 19, 2005 is inadequate for overcoming the 102(b) rejection set forth.

Regarding applicants' argument that "unexpectedly found desirable properties and other unexpected advantages", applicants fail to recognize that the presentation of "unexpected results" is an effective method for overcoming a 103 rejection, but the presentation of "unexpected results" is ineffective in overcoming a 102(b) rejection.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

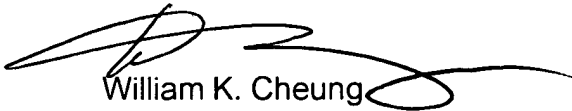

Art Unit: 1713

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
